

DURAWHITE® TYPICAL PROPERTIES

Description

DuraWhite Marble Aggregate is a very white and carefully sized marble for swimming pool plasters and other cementitious applications. It improves the durability and appearance of swimming pool finishes without sacrificing workability.

Typical Size Distribution

% larger than 12 mesh	0.5%
% larger than 16 mesh	6%
% larger than 50 mesh	55%
% smaller than 200 mesh	10%

Typical Physical Properties

Loose Bulk Density (lbs/ft ³)	100
Compacted Bulk Density (lbs/ft ³)	115

Typical Chemical Analysis

Calcium Carbonate (CaCO ₃ , PLA 4-70)	96%
Magnesium Carbonate (MgCO ₃ , PLA 4-70)	2.5%
Silica and Silicates (SiO ₂ , ASTM C-25)	0.4%

Mineral Properties

Color	White
Alkalinity (as NaOH, ASTM D-1208)	0.4 mg/gm
pH (ASTM-1208)	9.4 (saturated solution)
Hardness (Hand. of Chem. & Phy.)	3 Mohs, relatively non-abrasive
Solubility (Hand. of Chem. & Phy.)	0.0035 gm/100 ml H ₂ O at 100°C
Particle Shape (Microscope)	Irregular, uniaxial
Specific Gravity (ASTM D-153)	2.7
Refractive Index (Hand. of Chem. & Phy.)	1.6
Weight/Solid Gallon (s.g. x 8.345)	22.6 lbs/solid gallon (0.0443 solid gallons/lb)
Linear Expansion Coefficient (Hand. of Chem. & Phy.)	4.3 x 10 ⁻⁶ /°C

WITH DURAWHITE®
MARBLE AGGREGATE,
A GREAT POOL
IS IN THE BAG!

BENEFITS OF DURAWHITE® MARBLE AGGREGATE

DURAWHITE MIXES AND APPLIES SMOOTHLY.

DuraWhite® goes on smoothly from bag to bag because we've engineered it that way. That means you can consistently apply DuraWhite without worrying about whether or not it'll go on as quickly and smoothly as it did the last time.

"DuraWhite has proven to be easier to mix and apply than other aggregates. We love it!"
– Phil, Installer, Sarasota, FL

NOBODY EVER SCRATCHED THEIR FEET ON SMOOTH MARBLE.

While other pool surfaces are as rough as the coarsest sandpaper, DuraWhite's super smooth "Velvet Touch" surface lets you play in the pool longer without damaging tender feet.

NON-DURAWHITE POOL SURFACES CAN BE AS ROUGH AS SANDPAPER.

JUST ONE REASON WHY A DURAWHITE POOL IS SO DURABLE.

The enduring beauty of marble has helped ancient buildings last for centuries. It'll help your good reputation last for generations.

- DuraWhite pools are durable because they're made of marble.
- Durability means fewer callbacks and a rock-solid reputation for you.

DURAWHITE MEANS FEWER CALLBACKS.

WHY A DURAWHITE POOL LOOKS SO BRIGHT.

For a pool that shines like marble, use marble.

A DuraWhite marble pool is brighter and easier to clean, and it stays that way because algae have no pits to hide in. So it appears brighter longer, leaving more time to enjoy the pool, and less time cleaning it.

DURAWHITE POOLS LOOK CLEANER LONGER.
